THE SECOND TERM EXAM

Since its independence, Algeria has made important advances in the field of science. Many Algerian scientists and researchers contributed in changing the world with their great inventions and innovations. One of them is DR. Doumir.

Mohammed Doumir is an Algerian veterinarian and an inventor. He was born in 1985 in Tbessa, Algeria. He went to primary school, middle school and high school in Negrine in Tbessa. After he had his bachelor degree (BAC), Mohammed moved to the University of Taraf where he specialized in the veterinary medicine and graduated in 2008. Dr. Doumir joined "The Stars of Science" show which was created in Qatar to encourage the Arab generation to innovate and create new things. He invented "camel racing diagnostic boots" and won the first prize.

Dr. Mohammed Doumir is a great inventor who makes all the Arabs and Algerians proud of him and his achievements.

PART ONE:

A- Reading comprehension :
